Product Specification Sheet

Targus DEFCON® CL Armor Combination Lock

Part #: ASP10US

Product Description:

The Targus DEFCON CL Armor Combination Lock provides users with a lock that exemplifies strength, durability and security. This cable lock features dual-layer protection. Strong steel ringlets cover the galvanized steel cable creating an extremely strong frame to prevent cable cutters from severing the lock. The DEFCON CL Armor lock is equipped with a resettable combination lock that can be updated by the user at any time for added security. Perfect for unattended computers, kiosks, offices or conferences, this armor lock is the ideal way to secure your notebook, desktop PC, projector, LCD monitor or other mobile accessories equipped with a lock slot.

Product Features and Specifications:

- Extremely cut-resistant, vinyl-coated, steel-on-steel cable; Steel ringlets cover galvanized steel cable for dual layer protection
- Resettable keyless lock for added security
- Attaches to any notebook, desktop monitor or projector with a lock slot
- Designed for unattended computers, or kiosks where extra protection is required
